Stereotypes

- Masculine image
 - *I guess life just isn't fair until women grow chest hair, spit, chew, bench press 250 pounds, and write a computer program ... - Male Computer Consultant on ZDNN, 1998*

Stereotyped Tasks → Self-doubt

- Women CS majors less confident than even male non-majors (Beyer)
- Regardless of academic success
- Behavior conforms to noted stereotypes

Able Women Go Elsewhere

- She got an A in Computer Science [Intro] in the fall and an A+ in [Calculus I]. And do you know what she's taking this semester? English, Psychology, and Music. - CS Faculty Member*

Two Nationwide Studies

- Undergraduate study of attrition
 - Cohoon, Cohoon, and Turner
- Graduate study of recruitment & retention
 - Cuny, Aspray, Cohoon, and Jesse
- Focus on department or program environment

Gendered Attrition from CS

Average Annual Undergraduate Attrition 1994/95 - 1999/00

Departmental Variation

Gendered Attrition from the CS Major

Graduate Program Variation

Gender Gap in Thoughts of Leaving Graduate Program

Research Question

- What departmental characteristics are associated with the size of the gender gap in undergraduate attrition rates?

Methodology – Undergraduate Study

- Pilot study
- Interviews in 2001
 - 18 departments
 - 143 faculty and chair interviews
 - 178 undergraduate CS students

Methodology – Undergraduate Study

- Survey of 209 undergraduate CS departments in 2002
 - Largest and/or most prestigious undergraduate programs
 - Contiguous United States
 - Response rates
 - 76% chairpersons (159 chairs)
 - 68% faculty (1716 faculty)

Methodology – Undergraduate Study

- Official enrollment and disposition data
 - 73 departments
 - Calculate attrition/retention for men and women

Research Question – Graduate Study

- What departmental characteristics are associated with the size of the gender gap in students thoughts of leaving?

Methodology - Graduate Study

- Interviews and pretests
 - 3 programs
 - 1 national conference
- Survey
 - 49 programs
 - 2046 grad students (55% response rate)
 - 812 faculty (64% response rate)
 - 47 chair (96% response rate)

Attracting Women to Undergraduate CS

- Common attractions
- Women in particular

Common Attractions

- Positive prior experience
- Encouragement
- Math or logic confidence
- Enjoy programming
- Career rewards, flexibility, opportunity

*I got addicted to
that rush that you
get with
programming.
- Woman CS Major*

Attractions for Women

- Communication or creative self-expression
- Path to a helping occupation
- Recruited by peers
- Defy gender stereotypes

I came here as a Psychology major, had never touched a computer, had no intention of ever touching a computer other than for word processing. And a friend convinced me to take Intro to Computers ... for non-majors.

- Woman CS Major

Attraction to Graduate Study in CSE

Reasons for Pursuing CSE Graduate Degree

Recruiters to Graduate Study

Influential People in Decision to Pursue a CSE Graduate Degree

How Are Women Retained?

- Same as men for the most part
- Peers
 - Same-sex peer support
- Faculty
 - Encourage
 - Mentor for diversity
 - Expect work and focus
 - Adequate faculty

Leaving Under Same Conditions

Same-Sex Peers Retain Women

- Women help retain women undergraduates

Importance of Peer Support

- Most effective method of coping
 - *If I didn't have people here that I could come to and say, “What does this mean?” I don't think I would have stayed at all. - Female CS Major*
 - *You don't need a professor who's going to be like, ‘Don't you know this information? Didn't I teach it to you last week?’ You need a friend who says, ‘Don't worry. Together we'll work at it, and we'll learn it.’ - Male CS Major*

Few Female Classmates

**Gender Composition of Average Study
Department**

Why Same Sex?

- Many women in CS comfortably rely on men
 - *I've always, ever since I was tiny, had guys for friends. ... You know - I'm getting married; I can't seem to find any bridesmaids.*
 - *My brother's my maid of honor.*
 - Female CS Majors in the same focus group

Why Same Sex?

- Some women prefer to rely on women
 - Easier to approach
 - Less concern about image
 - Less opportunity for misinterpretation
- Classmate support from men?
 - *I got a 4.0 in my first semester and I had at least three separate guys, upon hearing about it, ask me if I did special favors for the professors. - Female CS major*

Equal Access to Peer Support

- Gender balanced enrollments give women and men equal access to peer support

Faculty Help Retain Women

- Sufficient faculty
- Supportive faculty
- Mentoring
- Expect effort and academic focus

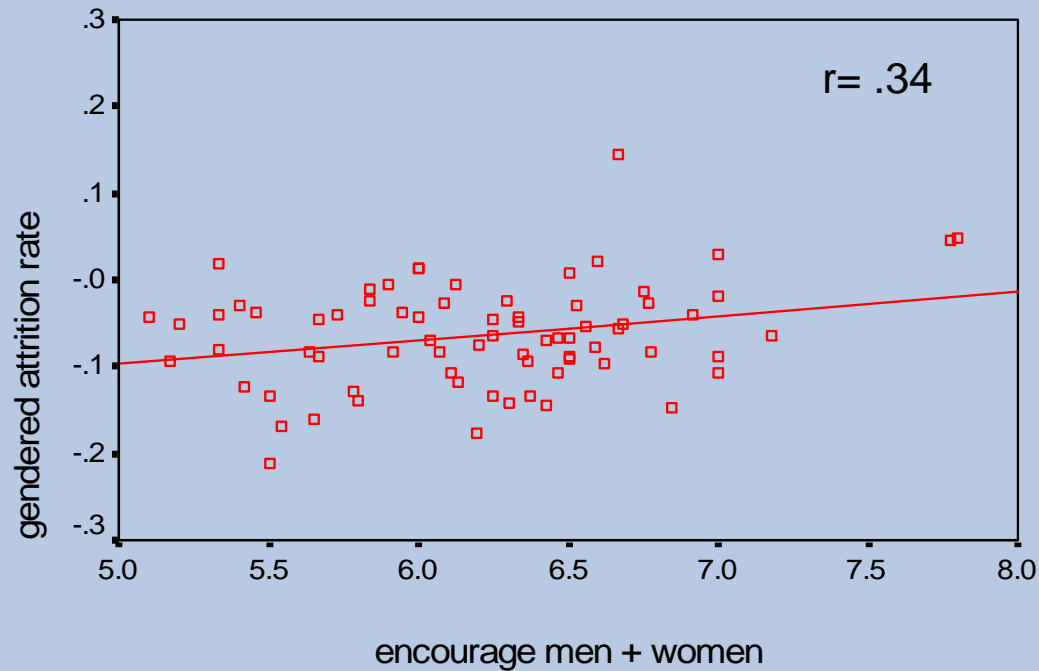

Supportive Faculty Retain Women

- Encouraging students
 - *It just takes me going to them and saying, "You do better than you think you do, so keep trying."* - Male CS Faculty Member

Encouraging Students to Persist

Encouraging Students to Persist
and Gendered Attrition Rate

Mentoring Undergraduates

- Out-of-class relationship that includes
 - Involving individual students in professional activities
 - Offering personalized advice
 - Encouraging individual students
 - Helping students establish careers

Typical Mentoring

- 3 hours/week for undergraduates
- 3 hours/week for graduates
- 25% of faculty mentor to overcome under-representation
- 23% of faculty initiate mentoring

Two Types of Mentoring

- Support mentoring
 - Help navigate rules
 - Encourage shy but competent students
 - Specific positive feedback
- Research mentoring
 - Involve students in research
 - Publish with students
 - Inform students of research opportunities
 - Supervise non-course-related work

Advancing Students

- Support mentoring ↑ progression to graduate study
- Research ment graduate progra

Outcomes of Mentoring

- Advance to graduate study
- Retain women through diversity mentoring

Mentoring for Diversity

Diversity Mentoring
and Gendered Attrition Rate

Hard Work and Focus Don't Hurt

- Undergraduate women succeed when faculty
 - Emphasize homework (average 7 hrs/week/course)
 - Expect focus

***I was in a sorority,
but I quit that
because it was too
much time
commitment. ...
I'm really trying to
focus on school. –
Woman CS Major***

Explaining Gendered Attrition

- Adjusted $R^2 = .56$ for undergraduates
 - Concern over insufficient faculty
 - Faculty who encourage
 - Faculty expect academic focus
 - Mentor for diversity
 - Female percent of enrollment
 - Hours of homework

Leaving Graduate CSE Programs

Reasons for Thinking of Leaving CS Graduate Program

percent of students who considered leaving

Leaving Graduate CSE Programs

So What Do We Know?

- Clues about attracting women
- Generalizable results about retaining women
- Generalizable results about advancing students
 - Clues about advancing women

Implications

- Gender balance can be improved
 - Local environment can overcome inherent differences and prevailing stereotypes
- Opportunity for intervention
